DETAILED ACTION

Oath/Declaration

1. The oath or declaration is defective. A new oath or declaration in compliance with 37 CFR 1.67(a) identifying this application by application number and filing date is required. See MPEP §§ 602.01 and 602.02.

The oath or declaration is defective because:

It does not identify the mailing address of each inventor. A mailing address is an address at which an inventor customarily receives his or her mail and may be either a home or business address. The mailing address should include the ZIP Code designation. The mailing address may be provided in an application data sheet or a supplemental oath or declaration. See 37 CFR 1.63(c) and 37 CFR 1.76.

Specification

2. The abstract of the disclosure is objected to because it should be generally limited to a single paragraph on a separate sheet within the range of 50 to 150 words. Correction is required. See MPEP § 608.01(b).

Allowable Subject Matter

3. Claims 1-29 are allowed.
4. The following is a statement of reasons for the indication of allowable subject matter: No prior art teach or suggest selecting one of a plurality of equalizer settings by computing a first metric representing the number of samples in invalid regions outside the multiple levels of a modulated signal, computing a second metric representing differences less than a threshold between samples that fall within valid regions and combining the two metrics.

Conclusion

Art Unit: 2634

5. This application is in condition for allowance except for the formal matters concerning the defect in the Declaration and Abstract as pointed out above.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
